## Summary

Senior medical device repair technician with +8 years of experience specialized on Endoscopes. I am repairing all types and series of FUJINON/FUJIFILM Endoscope Devices and have certificates related to the trainings I attended. I am interested to learn any medical devices and repair them.

## Professional experience

### Mavaree Fononn Asr – Workshop Manager

Apr. 2020 - Current

- I have been repairing all type and series of FUJIFILM Endoscope for 6 years at this company.
- Leading a team of 13 after sales service engineers, I have been playing a role as workshop manager at workshop division for about three years
- Leadership training, I am training new employees how to repair endoscopes and teach them how to act in teamwork.
- I am repairing minor, intermediate and major repair as an expert at the moment.
- I have invented a method to increase speed of major repairing up to 20%.
- Communication with doctors and nurses for problem solving remotely.
- I often go to hospitals and clinics to train nurses how to handle, use and maintenance Scopes
- I am training nurses how to prepare scopes for before and after procedure.
- I am new to Visual Studio vb.net, however I have created a software to help our department to get report from our services and analyze them to increase quality and speed of our services due to our main goal is give a better and quicker services to customer.
